

2026–27 Competitions

A maximum of **two** unmounted A4 or 10x8 prints (b&w or colour, image need not fill the sheet) should be brought to the competition meeting. It is expected that images will have been taken since January 2026.

You are encouraged to enter the competitions and reviews; entries are reviewed kindly, and gentle observations made. Phone camera images have frequently done well too!

Winning images will be added to our Flickr site:

Annual Competition – Festivals or Annual Events

Festivals happen all year, some annually, some more frequently, some just the once. Try to capture images that reflect the nature of the event or the engagement of those attending.

As external judging is involved for the Annual Competition, we will also expect electronic versions to be added to a gallery to be available for review prior to the meeting.

October – Street Furniture

Benches, cabinets, bins, signposts, and sculptural features are all included. Keep your camera ready for the curios, oddities, dull or exciting locations.

December – Fungi

You may have to get low for this. Our parks and local nature sites provide many opportunities.

January – Bare Trees

The leafless world of winter provides us with many a sculptural scene.

March – Spring Flowers

Snowdrops, wild garlic, daffodils and perhaps an emerging bluebell. Early flowering shrubs may also catch your lens eye.

Photoshoot reviews

For these events you are asked to bring with you a maximum of **4** A4 or 10x8 sized prints (b&w or colour, image need not fill the sheet) plus up to **10** images on a memory stick for projection in the second part of the meeting. Highly regarded images will also be added to our Flickr site.
